**Professional Expertise**

Digger began his brokerage career at the firm in 2003 as a sales and leasing specialist. He achieved early success earning the Rising Star award given to the broker achieving the highest production amongst brokers with less than five years of service.

Throughout his career, Digger has spent most of his efforts on the Landlord/owner side of the transaction and when the firm formed the Agency Team in 2012, Digger and his partner Scott were a natural fit to lead the team. The Project Leasing Team has grown to five full time members, with a sole focus on representing owners of office properties. Such a targeted approach, places clients in the best possible position to see every deal in the market and garner the best possible returns.

Prior to office brokerage, Digger worked in the NFL for the Tampa Bay Buccaneers in the position of Director of Football Administration overseeing all aspects of football department budgets, salary cap, and correspondence with the league office in New York.
